

Scooter Activities

Many of the activities we do indoors may also be played on scooters. These include:

- Soccer
- Speedball
- Floor hockey
- Handball

The basic rules for scooters are:

1. Students must remain seated on the scooters at all times.
2. No standing on the scooters.
3. Rules of the activity are enforced. This means, for example:
 - Players may not touch the ball with their hands when playing scooter soccer.
 - The ball may only be hit with the stick when playing scooter hockey. A small ball (5" diameter) and short sticks (the blade with a 6" handle) are used.
 - Players may not kick the ball if playing scooter handball.
4. Students may not pull the scooter out from under another student.
