

Uniforms and Warm-Ups

The track and field team will be issued uniforms and warm-up suits for this year. Each athlete is responsible for maintaining their uniform and warm-up by keeping it clean and returning it in excellent condition. Please read the manufacturer's instructions for care. The warm-up jacket may **NOT** be placed in the dryer. It is to be hung dry to protect the wind and rain coating of the jacket. The pants may be tumbled dry on low heat. The uniform is to be washed in **COLD** water and tumbled dry on low heat. Each uniform top and bottom has a number and letter assigned to it. Same thing for the warm-ups. Each athlete will sign a contract confirming the acceptance of the uniform and warm-up and must return their clean, assigned numbered uniform and warm-up at the end of the season. If any part of the uniform and/or warm-up is lost, and/or damaged, it will be the athlete's responsibility to replace the uniform and/or warm-up. The cost will be \$100.
